

SC1750

General Absorbent Spill Pads on Roll

General Absorbent • Indoor and Outdoor Use • Bonded Layers

PRODUCT DESCRIPTION

The General Absorbent Spill Pads on Roll 2 Pack can be used indoors or outdoors but it should be noted that unlike our Oil & Fuel rolls, the pads will absorb rather than repel water thus enabling it to handle water based spill pads have the capability of dealing robustly with workplace spills.

The bonded layers, indicated by the dimpled effect on the surface of the roll, helps the pads hold together even with vigorous use. The rolls are also perforated allowing them to be easily torn to size for regular maintenance tasks, cutting out potential wastage.

The pack has the ability to absorb up to 40 litres of fluid per roll.
