

## AS2305

# HAZTEC® Tengiz FR AS Inherent Green Combat Trousers

Flame Resistant • Anti-Static • Inherent Protection • Hi-Vis Bands

### PRODUCT DESCRIPTION

The trouser is constructed from a heavier weight 320gsm fabric. Two reflective bands to each leg help meet visibility requirements. The 320gsm Protex® material is inherently flame retardant and antistatic which means that its special safety properties cannot be reduced by repeated washing, as it is with treated clothing that has a surface treatment to render it FR and AS. The anti-static and flame retardant symbols are clearly heat sealed to the leg giving a visible proof of their conformity. The design offers superb wearer comfort in a traditional style.

### FEATURES & BENEFITS

- Two bands to each leg
- Available in short, regular and tall leg
- Sewn-in front crease to each leg
- Front pleats side elasticsation of the waistband for freedom of movement & comfort
