HAZTEC® Furrial FR AS ARC Inherent Combat Trouser

Flame Resistant (FR) • Antistatic (AS) •
Inherent • Fuel Distribution Trouser

PRODUCT DESCRIPTION

FR AS Trouser constructed from a heavier weight FR AS Inherent 320gsm fabric. Well established product within the HAZTEC® product range and developed in collaboration with oil terminals. When worn with the HAZTEC® Jacket, this garment set meets the visibility requirements of leading Oil Terminals. The 320gsm Protex® material is Inherently FR and AS providing special protective properties that cannot be reduced by repeated washing in comparison to Treated fabrics that rely on a chemical treatment for the FR properties.

The improved fit and design offers superb wearer-comfort which will complement perfectly any forward-looking, market leading company in the industry.
