

DK0038

Gold LNG Driver Refuelling PPE Kit

Designed for LNG Drivers • Range of Products

PRODUCT DESCRIPTION

The Gold LNG Driver Refuelling PPE Kit is designed to be used for drivers filling their vehicles with LNG. As this is a very cold liquified gas extra precaution needs to be taken to ensure you are wearing the correct PPE. This Kit includes the blue Cryogenic gloves which meet EN 511 (231) and have been tested down to a temperature of -197°C.

FEATURES & BENEFITS

- GL9823 - Cryogenic Cold Protection Gloves Knit Wrist
- HF0250 - Browguard & Visor
- EW0026 - Uvex Ultravision Gas-Tight Goggle
- WW0020 - Hi-Vis Stafford Drawstring Tote Backpack

CERTIFICATION

- EN 388:1994 (3233) (GL9823)
- EN 511 (231) (GL9823)
