

GL0028

Kutlass Ultra-NF Cut Level F Gloves

Maximum Protection • Nitrile Foam Coating • Generous Cuff

PRODUCT DESCRIPTION

The Kutlass Ultra-NF provides our maximum protection in a coated glove being tested to level F on the new TDM cut tests as part of EN 388: 2016. The liner encompasses a 4 yarn special blend wrapped around a stainless steel core and plaited on the inside of the glove to offer the user a smooth, cool feel throughout use. A hard wearing Nitrile Foam coating to the palm provides excellent grip in wet, dry or oily applications.
