

GL6666

Kong Cut Resistant Glove

High Cut Resistance • Durable Construction • Washable

PRODUCT DESCRIPTION

The GL6666 Kong Cut Resistant glove is designed to reduce the three most common hand injuries – crushing, bruising blows and pinched fingers. The glove also has a Cut 5 EN388 rating which ensures that it provides the highest level of safety with the combined impact and cut resistance. Manufactured under a durable construction, the GL6666 is designed to increase grip and improve and provide superior hand safety.
