## HAZTEC® Attaka Puncture Resistant Ballistic Trouser

Puncture Resistant • Cut Resistant • Flexible & Comfortable • Needlestick

### PRODUCT DESCRIPTION

The HAZTEC® Attaka Puncture Resistant Trouser is the result of extensive research for fabrics that can protect against cut and puncture injuries, including Needlestick injuries, whilst remaining flexible enough to be worn as normal corporate PPE and uniform. Featuring puncture-resistant needlestick fabric around 80% of the leg circumference, these trousers offer outstanding protection. Unlike many other puncture-resistant solutions, the fabric is lightweight and flexible enough to ensure maximum dexterity and user comfort.

### FEATURES & BENEFITS

- Top-level puncture resistance
- Needlestick protection
- Manufactured from a flexible fabric
- Double hi-visibility bands for visibility
- 80% ballistic protection around the leg
- Abrasion-resistant

**Sizes:** 32 - 48 S, 28 - 50 R, 40 - 48 T

**Colours:** Grey

**Fabric:** 65% Polyester/Cotton 245gms plus Puncture Resistant Outer Fabric

### CERTIFICATION

- EN Standards apply to the protective panel fabric only
- ANSI-105: 2005 Level 4 (CPPT)
- EN 388 - Level 5
- ASTM F1342-05: 86 Newtons of puncture resistance using the standard 2.03mm diameter puncture probe
- ASTM F1342-05 (modified) 4.1 Newtons of puncture resistance using a 25gm needle
- Abrasion Resistant to EN 388 Level 4 and ANSI-105: 2005 - Level 2
