ABOUT VARMATECH® FABRICS

VARMATECH® IS THE BLEND OF FABRIC USED IN ORKA® FR WORKWEAR TO PRODUCE OUTSTANDING AND DURABLE GARMENTS FOR HEAVY INDUSTRY.

VARMATECH®

VARMATECH® FR Fabrics are used in the production of ORKA® FR Workwear. Each fabric provides low shrinkage FR Cotton, with the addition of Polyester in some blends to provide enhanced performance in industrial washing. Varmatech® fabric blends are strong in both the warp and the weft, and are tested to European Norms including EN ISO 11612 (Heat & Flame) and EN ISO 11611 (Welding), with some fabrics also being tested to IEC 61482 (ARC Flash Protection) and EN 13034 (Chemical Protection). Choose ORKA with Varmatech® fabric for your next FR Workwear.
