HELPING YOU ACHIEVE **NET ZERO**

SUPPORTING YOUR NET ZERO JOURNEY

We are working hard to support our Customers in their journey to Net Zero with a range of Sustainable Solutions to Workwear and PPE and the associated problems with disposal. In some sectors, sustainability is more of a challenge, which is why every small change can make a huge difference.

The drive to reach Net Zero, as advised by the UK Committee of Climate Change, is a focal point in the now and the future of HAZCHEM.

We keep our energy consumption low in our offices by using LED lighting, smart working procedures and electronic timers for our heating systems.

Our Pathway to **Green**

ECO FRIENDLY PRODUCTS

Regenerating waste material into raw material diverts tonnes of waste each year from landfill and polluting our environment. That's why we're proud to offer you our huge range of sustainable products for the protection of you, and the planet.

ECOVIZ

EcoViz® from Leo Workwear is the leading brand of high visibility clothing made from recycled or sustainably sourced fabrics. All EcoViz® products fully conform to ISO 20471 whilst constructed from fabrics derived either from recycled post-consumer clothing or recycled plastic bottles.

COFRA

Cofra is a range of Eco Friendly Safety Footwear. The shoes are made from a combination of recycled PET and recycled Polyurethane.

EU MANUFACTURING OF FR WORKWEAR

Manufacturing Technical Workwear in the EU results in less emissions and a reduced carbon footprint, as well as many other benefits such as shorter lead times and more control throughout the design and manufacturing process.

WORKING RELATIONSHIPS WITH OTHER 'GREEN' COMPANIES

Net Zero is also affected by the outside companies we use for delivering our services such as order shipping. We make sure to work with companies that share our passion for being Green!

SECURE GARMENT RECYCLING

Our garment collection and shredding service has been designed to ensure that your brand is protected through the secure disposal of branded garments.

Unfortunately, today Staff uniforms and Branded clothing is highly valuable to others, no longer is printed and electronic data the only source of valuable information. Failure to dispose of these garments correctly may result in damage of brand reputation and unauthorised access to restricted areas which may result in a breach of the Data Protection Act.

Hazchem's secure collection and shredding service is the perfect solution to ensure that the necessary steps are taken to ensure that your business is protected. This is possible with our 100% traceable service.

HARD HAT RECYCLING

Non-Recyclable plastics end up landfills, taking more than 500 years to decompose, and can leak harmful pollutants and toxins into the earth. The Good news is Hard Hats are completely recyclable and HAZCHEM are here to help with it.

HAZCHEM have teamed up with YES RECYCLING, a UK Plastic Recycling Specialist Company, to bring to you THE NATIONAL HARD HAT RECYCLING SCHEME. An easy way to send your end-of-life hard hats to be fully recycled into new Polymer Pellets, the Raw Material for manufacturing Plastic.

This All-Inclusive Membership Scheme available directly with YES Recycling makes disposing of bulky hard hats, convenient and Planet-Friendly, with Disposal Documentation sent directly to you, so that you can be confident that your old hard hats will not be wasted or damage the earth.

The UK based YES Recycling facility, disposes of your hard hat components, whilst recovering all of the plastic material. This is then processed into new plastic pellets, which can be used as a raw material to make new products, all right here in the UK.

Get in touch to find out more.
