

PL0016

Nightstick Magnetically Coupled Charger Male USB (Type A)

NOTE: This charging cord is not compatible with Nightstick USB-rechargeable handheld lights.

PRODUCT DESCRIPTION

This 4-foot MAGMATE™ magnetic USB charging cord is designed to fit the Nightstick rechargeable series 5554 & 5562 lighting products. Please note this charging cord is not compatible with Nightstick rechargeable weapon lights that utilize a more compact charging connection based on product design. The integrated magnet located opposite end of the USB power connection provides a secure connection that snaps in place when in close proximity of the lighting product's charging base. A built-in LED charging indicator will remain red while charging and turns green when charging is complete.

FEATURES & BENEFITS
