

PL5593

Nightstick Tripod for PL0011 Scene Light XPR-5592GX

Retractable folding legs • Pair with PL0011 LED Scene ATEX Light • Extends up to 6 Feet

PRODUCT DESCRIPTION

The PL5593 Nightstick Tripod is for use with the LED Scene/Area Lights (PL0011). This tripod features retractable folding legs and extends up to 6 feet, using 2 adjustable cam locks. The magnetic base of the LED area light slides onto the top mounting plate of the tripod for a secure, adjustable fit. Originally designed for the 5592 Series scene lights, this tripod is able to fit multiple models due to its enlarged mounting plate.
